

Environmental Policy Statement

Precision Moulded Products (Essex) Ltd is committed to the protection of the environment through safe working practices and continual improvement.

To achieve this we will:

- Comply with all existing legislation and approved codes of practice
- Be committed to setting environmental objectives and targets
- Monitoring the environmental performance against those objectives and targets
- Assess the environmental effects of all new and existing processes
- Ensure that all employees and others are aware of the environmental implications of their activities and receive appropriate training where necessary
- Encourage understanding of the environmental policy and objectives by suppliers and contractors
- Be committed to continual environmental improvement and the prevention of pollution
- Minimise the consumption of natural resources and energy and use renewable alternatives where appropriate
- Carry out periodic audits of the Environmental Management System and implement corrective actions where necessary
- To ensure that the Environmental Policy is effectively communicated to all relevant stakeholders
